"The Coin Machines Merry-Go-Round"

SCHOOLS FOR COIN MACHINE MECHANICS

It is extremely interesting to note at this time that the majority of the phono manufacturers have decided that they will conduct schools for coin machine mechanics as soon as they possibly can.

Some of the new manufacturers, who are entering into the automatic music field, have also announced to those distributors with whom they have already spoken, that one of the features which they will have, as their production gets under way, will be schools for mechanics. Courses will be given to the mechanics of the distributors they will appoint, as well as to the mechanics of any jobbers and operators who will buy their machines and who care to send their men to these schools.

For many months The Cash Box has been urging the industry to create schools for coin machine mechanics. Not only is this necessary from the standpoint that it will allow for greater progress for the industry, but also from an intelligent manufacturing and sales viewpoint as well.

It is a well known fact today, after these wartime years, that some of the machines which were condemned a bit too soon by the trade, outlasted many others which met with early approval. This only became fact when the mechanics gave these former type machines more complete attention. Thereby proving the value of well trained mechanical skill.

Any manufacturer, therefore, who sends out an entirely new product in the postwar period, and doesn't train the mechanics of his distributors to most completely understand that product, is taking a big chance on losing the confidence of the men to whom his merchandise will be sold.

Instead of the distributors having to write, wire or phone the factory for help regarding some part of the machine going out of order, they can now take care of the repairing themselves. Their mechanics will have been most completely and carefully trained to understand every part of the machine by factory engineers.

This not only means better sales for the manufacturer, but it also means greater confidence in his products. As long as there are factory trained mechanics on hand to instantly correct any faults which may appear in a mechanism, the operator will have more faith in purchasing such units.

The manufacturer can therefore do himself a world of great good if he will create, along with the introduction of each new product, a complete factory course for the mechanics of his distributors, jobbers and operators, so that these mechanics will most thoroughly understand that product. And it wouldn't hurt for some of the distributors, jobbers and operators themselves to also attend these schools.

Such manufacturers' schools can also be geared to accommodate much more than just the mechanics of their own distributors, jobbers and operators. They can handle men who want to become mechanics by allowing these men to attend the schools.

Such additional students will prove of tremendous worth to the manufacturer for the future. It will mean that those operators who seek to expand their routes will be in a position to do so. They will be able to obtain trained mechanics to watch over the additional equipment which they will purchase. And that means more sales all down the line from the manufacturer to the jobber.

The fact that the phono manufacturers are preparing to open schools for mechanics, almost the same day they announce their new products, should lend incentive to all the other manufacturers in the vending machine, scale and amusement machine fields to also assure themselves of better understanding of their equipment by the creation of schools for mechanics tutored by their engineers.

"The Coin Machines Merry-Go-Round"

One national beverage dispensing firm are at present having a moving picture made of how they want the machine, which they will operate, serviced and repaired. This picture will be shown to all their servicemen, collectors and repair men thruout the nation. And this picture is only being made possible because of the cooperation of the manufacturer who is devoting much time and effort to it.

As this industry progresses it will find that schools for mechanics created now will prove of great value, great profit and tremendous benefit for many, many years to come.

The average coin machine man reported that "Schools for Coin Machine Mechanics" was the most valuable suggestion ever offered to the trade by The Cash Box. It should therefore be accepted in the same light by manufacturers who desire to please their customers, as well as assure these customers the finest of service and assure themselves great good will and bigger profits.

It would be a great boon to any manufacturer to set aside a room in his factory and allow his engineers to give two and three hour daily lectures on his products for a week or so, whenever a new machine is introduced. In a few short months such schools would become a habit for every mechanic employed by any distributor or jobber handling any manufacturer's line.

The Cash Box most sincerely hopes that all the coin machine manufacturers will create schools for mechanics and thereby help the operators, the basic backbone of the field, to better serve the location because of a more thoro knowledge of the products they operate.

"Schools for Coin Machine Mechanics" are the finest (and the cheapest) insurance for a greater industry for tomorrow.

JOHN Q. PUBLIC DOESN'T BUY THE MACHINE

It is irritating to a great many coinmen who are engaged in selling equipment, to note that there still are operators who are standing by and waiting for the new machines to be introduced, before they will again think about buying.

It is safe to state that such operators may have a pretty long wait. This is not the time for "standing by". This is not the time for wondering whether there is, or isn't, going to be new machines on the market very soon.

It is well for those operators, who believe that they had best wait, to remember that others are not waiting. These others are purchasing whatever machines they can at this time, to cover as many locations as they possibly can, so as to be completely prepared for the post-war period.

The best way to explain the situation is to probably advise these operators that it isn't the machine, as much as the location, that really counts.

Nor does John Q. Public buy the machine, when he inserts his coin into the coin chute. He is, instead, purchasing the thrills and relaxation of the game he is about to play, or the music he is about to hear.

Johnny Public just doesn't care whether the machine is two days old, or twenty years old. If he likes what that machine gives him in return for his coin, he's going to put his coin into that machine.

Therefore, those operators who are standing by and waiting may be losing a great many good locations and much profit for tomorrow. The man who is buying and placing what he buys, is the man who is going ahead.

Remember—Johnny Public doesn't care about buying the machine. He is only interested in buying what that machine vends—whether it be candy, gum, cigarettes, soft drinks, weight, music or amusement.

“The Coin Machines Merry-Go-Round”

RETURNED VETERANS LIKE THE COINBIZ

It is truly elating, questioning returned veterans, to learn how much they like coin machines.

Some of these men are eager to enter into this field. They want to be mechanics, service men, route men, supervisors, in fact, almost anything—simply to “learn the business”. And all of them believe that this is “a good business”.

This may surprise some coinmen. It really shouldn't. If these coinmen will get out and talk with the average returned soldier, sailor or marine, they may even get an entirely different picture of their own industry.

Most of these boys had nothing but coin machines to entertain them thru long and boring days in some far hidden place. Others only knew what a touch of home really was when they came across a pin game, or a juke box, or some other coin machine.

Not only did this mean home to them, but the great crowd of G.I.'s that gathered around each coin machine **wherever** it was located, was enough inducement for them to begin to think about the fact **that perhaps** they, too, could earn a living in this very fascinating field.

And, therefore, many G.I.'s now returning from the European theatre who have their 85 points or more for an honorable discharge, are calling around at various coin machine jobbers and distributors and inquiring how they can get into the field.

A few weeks ago The Cash Box reported the ambitious plan of a returned Marine, who has served in both World Wars, regarding the fact that he was making arrangements for a 1,500 initial juke box operation thruout the convalescent hospitals and homes that are springing up all over the nation.

This one returned vet has put many juke box men to shame with his understanding of the field. Others, like him, are also coming out of the armed forces, and they, too, have ambitious plans concerning this industry.

"SPEAK UP"

For some weeks **The Cash Box** carried a separate insert offering the members of this trade the opportunity to “**speak up**”. The chance to tell all and sundry what they think should be done to help this business progress and prosper.

Many took advantage of this opportunity and offered suggestions. Some of these suggestions were of tremendously good value. Yet many passed up this opportunity to speak out for themselves.

Only by acting for all in this industry does The Cash Box feel that it is doing its job, and doing it well. The Cash Box has always considered itself a medium for the interchange of news, views and ideas of its readers.

Once again, then, to those who haven't as yet answered, or offered their suggestions—The Cash Box asks these men to "speak up".

Tell the trade what you think should be done to help this business become the kind of business you want it to be. **“Speak up”**—write now. . . .

"TALKING OUT LOUD"

PETITION RECORD MFRS

Regardless of the fact that Representative Charles A. Buckley's bill (H.R.3190) now in the Patents Committee of the House of Representatives in Washington, D.C., may or may not be killed in that committee, it has become necessary for the juke box industry to take steps for its future welfare and protection. (The complete story and a reprint of the Buckley bill appeared in the July 24 issue of The Cash Box.)

The first, and most important, step is to have the present reading matter appearing on all record labels changed to conform to what this industry requires for its protection.

It is the belief of the leaders of this industry that the record manufacturers, because they are so closely involved in their business dealings with the artists and publishers of music, as well as with the organizations representing these artists and publishers, are therefore in the best and certainly in the most logical position to arrange for a change in the reading matter now appearing on all record labels.

If this entails a few pennies increase in the price of each record, to obtain this change, the juke box operators have reported time and time again that they are more than willing to pay a fair charge in addition to the present cost of the records, for it assures them no further molestation from these people, and at the same time it also assures them of records exclusively designated for their use.

The record manufacturers should have their already experienced legal staffs immediately arrange to make this change. Therefore the presentation of the following petition by The Cash Box to the members of the juke box industry so that they will help to bring about this change in the reading matter now appearing on the record labels for their future better welfare.

SIGN AND MAIL THIS PETITION TO THE MAIN OFFICES OF THE RECORD MANUFACTURERS WHOSE RECORDS YOU BUY. ADDITIONAL COPIES OF THIS PETITION WILL BE FURNISHED TO YOU FREE OF CHARGE — WRITE TO THE CASH BOX, 381 FOURTH AVE., NEW YORK (16)

Petition

Whereas the members of the juke box industry have decried time and time again the fact that the wording now appearing printed on your record labels, reading as follows:

"Only for non-commercial use for phonographs in homes. The manufacturer's original purchaser agrees this record shall not be resold nor used for any other purpose."

does most definitely not make this a record for our use, and

Whereas you have stated time after time that you desire, most heartfully, to completely cooperate with the members of the juke box industry . . .

WE PETITION OF YOU TO ARRANGE NOW TO HAVE LEGALLY CHANGED THE PRESENT WORDING PRINTED ON YOUR RECORD LABELS TO INCLUDE OR TO EXCLUSIVELY FEATURE THE FOLLOWING:

"For use in coin operated musical instruments"

SIGNED _____ DATE _____

FIRM NAME _____

ADDRESS _____ CITY & STATE _____

THRU THE COIN CHUTE

PROTESTS ARCADE TERM LICENSE

ST. LOUIS, MO. - Carl F. Trippe of Ideal Novelty Company, this city, reports that on attempting to renew his arcade licenses for this coming year he was advised that it might be possible the local revenue agent would not further allow licenses with the address as "at large".

Trippe protests this from the standpoint that the arcades he has in amusement parks surrounding this area are only open for about four months and that this would mean a loss of 8 months revenue cost on the license. In former years, he states, the local revenue department issued the licenses with the "at large" address on them so that he could move them into one of the other spots in town after closing his summer arcades.

(This condition has been prevalent in the East and in other parts of the nation where the Arcade Owners Assn., New York, have been fighting in Washington to get a ruling in this direction. The Cash Box reported many times the fact that such action on the part of Federal authorities was entirely unfair. It is the hope of the members of the Arcade Owners Association that more will help them in their efforts to overcome this situation.)

NAM ASKS 10% PERSONAL TAX CUT

WILMINGTON, DEL. - H. E. Humphreys, Jr., Chairman of the National Association of Manufacturers' taxation committee, in an address before the Industrial Purchasing Agents Association offered a four point tax program calling for retention of heavy excess profits until the end of the year, marking the close of the war with Japan, and a 10% reduction in individual levies for 1946.

The program to aid transition to peacetime production proposed: 1) Reduction in the income tax of individuals for 1946 by 10 percent. 2) Continuation of the excess profits tax until the end of the year marking the close of the war with Japan, with the repeal date to be set now. 3) Reduction of the combined normal surtax rate of 40% on corporations to 32% on 1946 income to encourage peacetime production and employment. 4) Repeal of so-called specialty taxes which yield a return of less than 1% including the capital stock tax, declared value excess profits tax, the penalty tax on consolidated returns and the tax on 15% of dividends received by corporations.

(What will prove tremendously interesting to the cointrade, aside from the fact that all would like to see this 4 point program go thru, is the fact that Mr. Humphreys is Chairman of NAM's 'taxation committee'. This can be likened to the 'National Tax Council' for this industry which The Cash Box has proposed time and time again. This council becomes ever more pressingly important and should be made the first order of coin machine post-war business so that this trade, too, will find its tax problems greatly eased to allow for more rapid growth.)

WPB TIGHTENS LUMBER BY REDRAFT

WASHINGTON - The War Production Board has just redrafted lumber quotas once again on the basis that the continuing huge needs of the military in the Pacific dictate such revisions. The Navy has been given a much higher allotment than ever before. The National Housing Administration has also been given more lumber. Nearly all other users have been cut, some considerably.

(This again tightens the present lumber bottleneck in the coin machine industry which was hoping that the successes now being enjoyed by the military in the Pacific would ease the situation, so that lumber for cabinets and other requirements would be made available for the manufacture of machines.)

WPB's "BRAIN BANK" FOR ALL MFRS.

WASHINGTON - The nearly 6,000,000 suggestions made by employees through 5,000 nationwide labor-management committees, are now open to all manufacturers, the War Production Board, which has accumulated these, reports.

This is being called, "WPB's 'Brain Bank'". Of these 6,000,000 suggestions over 1,500,000 have been put into use and have saved manufacturers about \$300,000,000.00. All these suggestions came about during the war. It is believed that they will prove of tremendous value to all manufacturers during the coming peacetime years.

(Those who wish to avail themselves of WPB's 'Brain Bank' should contact this agency for many of the suggestions are sure to prove of tremendous value to the average coin machine manufacturer.)

WAR WORKERS OPEN SMALL BUSINESSES

WASHINGTON - There is a surety that there will be more small businesses booming up during the post-war period than ever before in business history of the nation, because the average war worker will not return to former jobs where he does not obtain the salary being paid to him by the war plants.

Most outstanding example are those who have lost positions at Ford's Willow Run plant which paid a minimum of \$1.25 per hour. These workers are not returning to former jobs. Nor will they take jobs paying less wages than what they formerly earned. The situation is becoming alarming according to government investigators and may bring about huge upset in labor situation with much unemployment.

In the meantime those war workers who have saved some money while engaged in war jobs are intent on opening small businesses of their own. This trend is increasing at a great rate wherever unemployment now exists. It is generally believed that there will be more small business in operation before 1945 is over than ever before.

(As far as coinmen are concerned, this return to smaller business operation is reported to be of great value to them. These men believe that this will mean more locations for all types of coin operated equipment. They also feel that many of these small business will continue on to success. In the meantime many coinmen are already arranging to place equipment in spots which have opened and will continue doing this for sometime to come.)

WAR WORK DROPPED 65% IN 1944

WASHINGTON - Interesting to all who wanted figures as to the cutbacks in war production this past year are those which have just been released and which show that war work dropped over 65% during 1944. With even higher percentage of cutbacks already in effect this year, it is generally believed that a return to domestic production is instantly necessary.

CHICAGO CHATTER

Jack Nelson, Superior Products, comes back to his offices after a 2 weeks business trip to hear the glad tidings that his son, Jack, Jr., has just received his commission and is now a Lieutenant in the Marines. So he decided to spend his vacation with his son who is coming home on leave.....Dick Groetchen (Groetchen Tool Co.) away on a fishing trip in northern Wisconsin and Eddie Hansen, salesmanager, returns from a quick trip to the West Coast and reports that we dispel all rumors to the effect that Groetchen is not returning to the coinbiz. Eddie says they are not only going to continue making Columbias but also many other coin operated items as soon as they get the word to go ahead again.

Visitors seen over at Gil Kitt's Empire Coin this week: Bill Jay of Jackson Amusement Co., Jackson, Mich., Henry Fox of Jackson, Miss., Birmingham, Ala., New Orleans, La. and other points south. Also Clem Conter of Sheboygan and Joe Lama of Lake Geneva, Wis.....Mac Churvis opens his own advertising agency in Chicago and pits himself against the field.....Sam Strahl of Pittsburgh seen around town this week with a very happy grin on his face. Sam says, "Things look better than ever".....Sammy Stern of Scott-Crosse Co., Philadelphia, Pa. also in town and reported to be ready to break with some big news.....Herb Jones at Lion Mfg. Corp. hints at some "great news" very, very soon.....Ted Rubenstein of Marvel Mfg. Co. pressed to keep up with the demand for his new revamp, Yankee Doodle, he reports.

Heinie Roberts over at Mills is almost busting out loud with suspense. Heinie wants that speed phono action to get going again.....The famous Max Glass arcade in the Sherman is reported to be headquarters for coinmen visitors after noontime when Max makes a personal appearance.....Dave Stern of Royal Distributors, Elizabeth, N.J. in town and making the rounds. From current reports Dave is ready to pop with the biggest distrib quarters in the east.....Boots Strange of Danville, Va. seen about town and mighty interested in getting some of those new machines down to his part of the world - when they're ready.....Sam London of Milwaukee Coin Mach. Exch., Milwaukee, Myer Gensburg of Genco, Chicago and Morris Ginsberg of Atlas Novelty Co., Chicago, all reported vacationing at Eagle River, Wis.

Al (Bell Products) Sebring (of the Chicago Al Sebrings) drives the family up to Wisconsin to visit their eldest son, Gene, who is at camp there, and Harry Salat, who has just returned from his vacation, takes over the job of cleaning out two full floors of merchandise preparatory to moving to their new quarters.....Harold Baker of Baker Novelty Co. seen bending over a drafting board reported to be drawing blue prints for those future Baker models.....Al Stern of World Wide Distributors is reported to be getting busier every day and with the way visitors are calling around at this North Ashland Ave. spot it looks like Al will never get to completing some of the work that is piling up on him.....Ed Pace (Pace Mfg. Co.) seen at his office every day these past weeks. He's rarin' to get back into old time speed action once again.

Lew London, Leader Sales Co., Reading, Pa. in town again this past week. It seems like Lew is becoming a commuter to the Windy City.....Alcorn and Cate the noted Jacksonville, Fla. ops pulled into town this past week and are reported to have done some good buying.....Larry Schechter of Central Mfg. Co. is getting all set to forget about living the life of a bachelor. He'll say "I do" to Isabel Hauser on Aug. 19. And they plan a long honeymoon thru northern Wisconsin.....Carroll Vetterick of O. D. Jennings & Co. is up with the milkman every morning these days - making those important contacts in the interest of the firm's Dairy Vender.....Morrie and Eddie Ginsberg have decided to remain at their present location after all. Especially in view of the fact that those very expensive plate glass windows have just been installed listing the firm's offices all over the country.

Coolerest of the busiest guys in town is Harold "Perk" Perkins over at American Amusement Co. Even tho his desk is piled high, phones are ringing, visitors comin' in and others shouting, laughing and talking, the temperature at the 100 mark - Perk just rolls along, calm, cool and collected.....Mr. and Mrs. Bert Lane in town spending the week visiting around in the trade.....English Wiczer of Harry Marcus Co. speeds out to Pittsburgh and back on one of the biggest deals in the firm's history..... What everyone wants to know: Is Ray Moloney actually the manufacturer of those "Lion" cigarettes now being sold around town. And we're trying to get Georgie Jenkins or Herbie Jones or someone over at Lion to give us the answer.

C. M. I. BLUE BOOK

The "Coin. Machine Industry Blue Book" for new and used coin operated equipment is issued every week. It is a review and digest of all selling prices based upon the market quotations for the week. Copyrighted 1945 by The Cash Box, 381 Fourth Avenue, New York 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The C.M.I. Blue Book is to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading the past week.

NOTICE ! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.

PUNCHES - - - NOT HUNCHES

WE'VE never depended on whims or guesswork in formulating our business policies. In our relationship with operators throughout the country, we approached each problem with considerable study and investigation. When we arrived at the answer, it packed a punch that could be relied upon whenever a similar question arose. Careful analysis of operator's problems has been responsible for the GENERAL'S dominating position in the coin machine industry.

INTANGIBLE . . .

Character and Personality are intangible, yet they are very real. Their reality is made known in service to others. This is as true of organizations as of individuals.

We have always held that service to operators comes first. We believe that the trust operators put in us is not to be shouldered lightly.

How well we are maintaining this credo is not for us to say, but an ever increasing list of satisfied customers is ample reward.

Bally

IS BACKING THIS JUNGLE FIGHTER

Steady, ever-increasing production of vital war products, already acknowledged four times by our government, tells the story of Bally in this great war. It means that Bally is helping to arm our fighters on far flung battle fronts. And too, it demonstrates that in the future as in the past, you can bank on Bally games and venders.
